SuSanA India Chapter Meeting, Goa, India

We have come a long way – SuSanA turns 10!

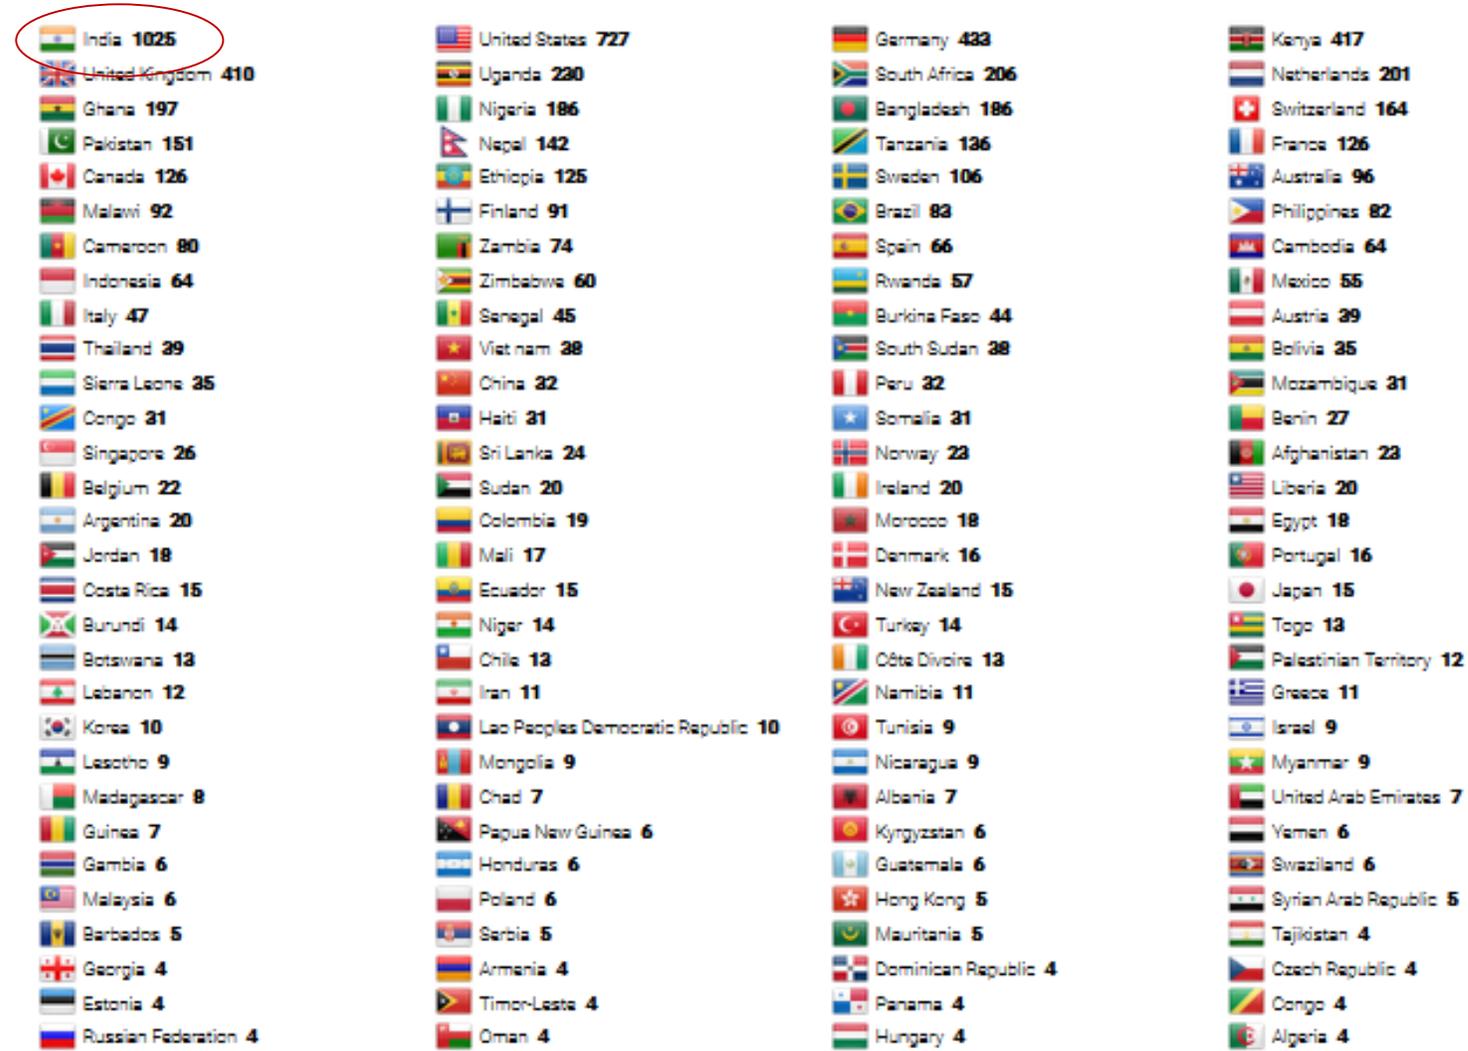

- SuSanA is an open network
- Links on the ground experiences with an engaged community
- Aims at promoting innovation and best practices
- SuSanA currently has 8000 individual members & around 300 partner organisations

SuSanA worldwide – SuSanA members

We are a
global
community!

... with:

More than
1000 Indian
members
&
More than 100
organisations
active in India

SuSanA Working Groups

1. Capacity development
2. Market development
3. Renewable energies and climate change
4. Sanitation systems, technology, hygiene and health
5. Food security and productive sanitation systems
6. Cities
7. Community, rural and schools (with gender and social aspects)
8. Emergency and reconstruction situations
9. Public awareness, Advocacy and Civil Society Engagement
10. Operation and maintenance
11. Groundwater protection
12. WASH and Nutrition
13. Behaviour Change

Members by % # working group

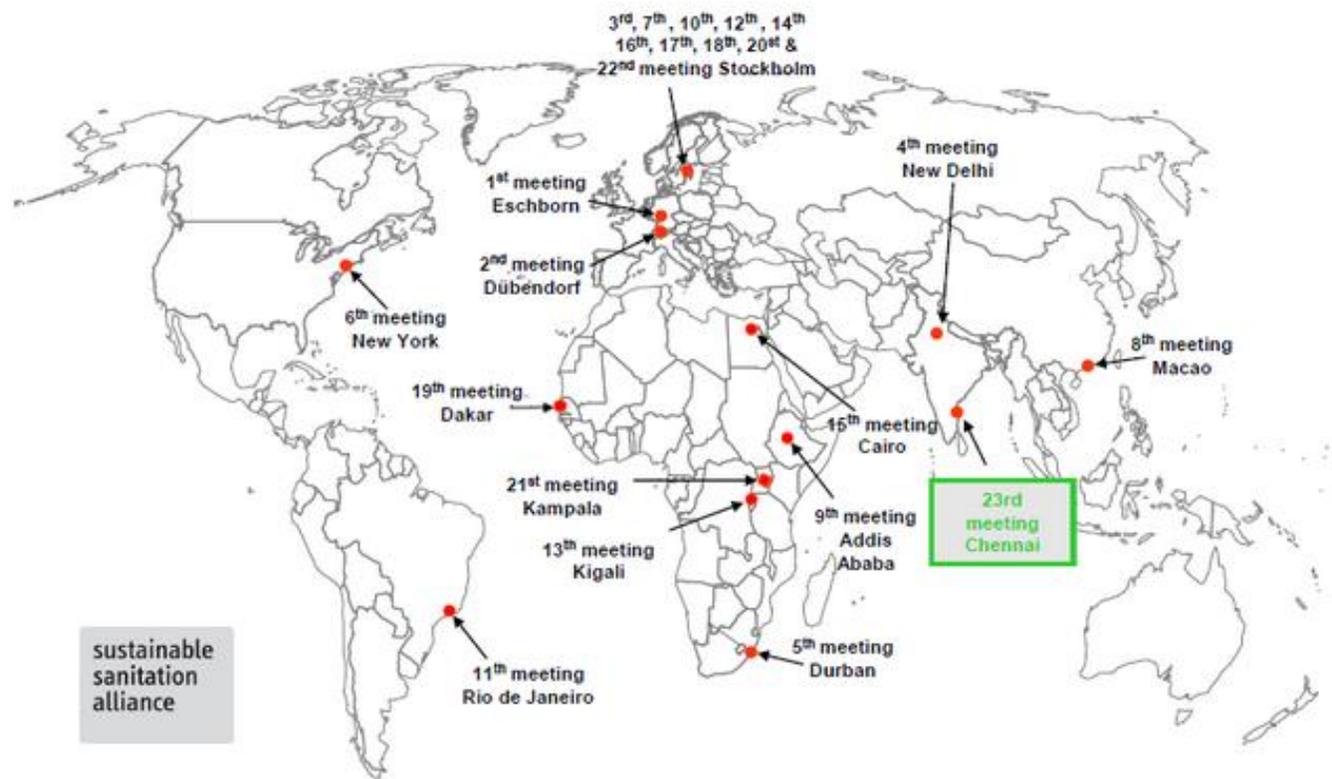

Products, outputs, portal-sections

- Case studies (96)
 - Working group factsheets (14)
 - Library (2155), project DB (280),
 - Videos (< 250), photo database (< 10 000)
 - Thematic Online Discussions
 - Webinars
 - Key publications
- SuSanA website
 - Partner profiles
 - Events calendar
 - SuSanA Forum
 - SFD-Portal
 - FSM4-digital home

SuSanA - India Chapter

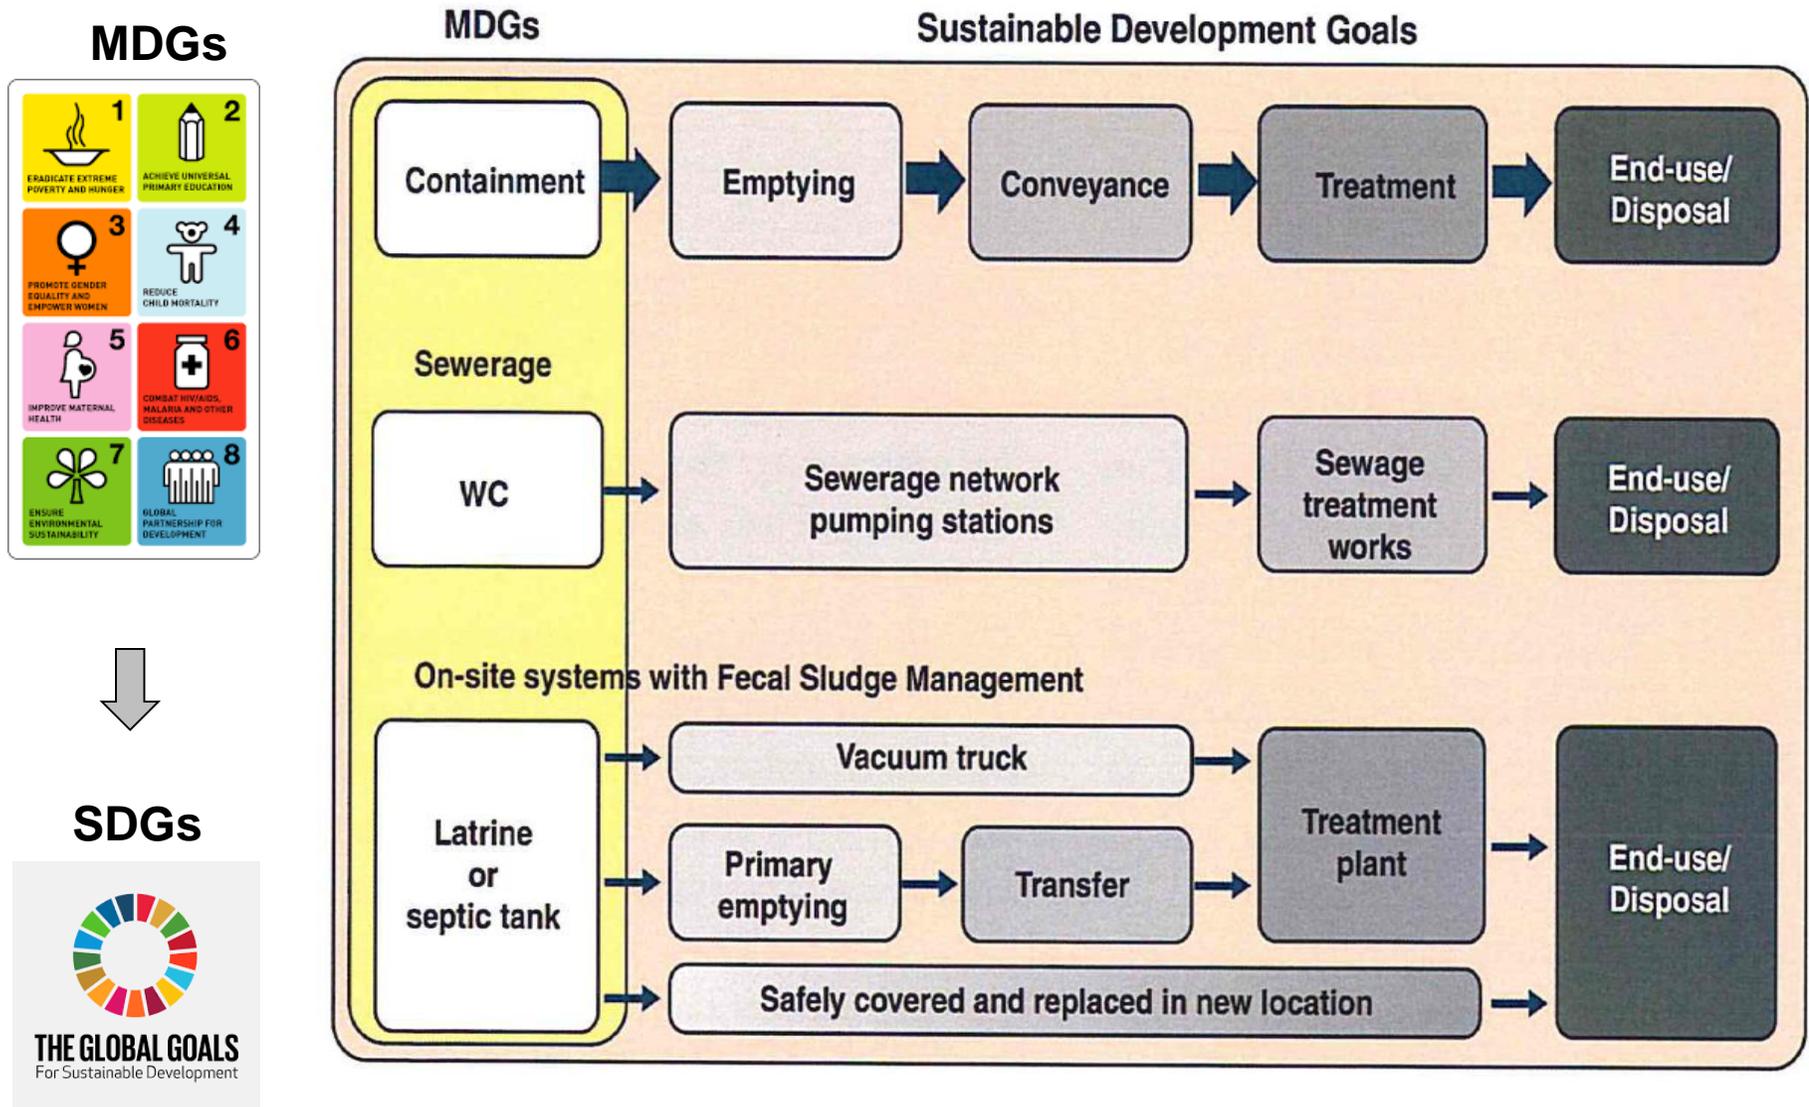

We are getting ready for the Agenda 2030

A revised SuSanA Vision Document

From the MDGs to the SDGs – main differences between the MDGs and the SDGs related to Sanitation

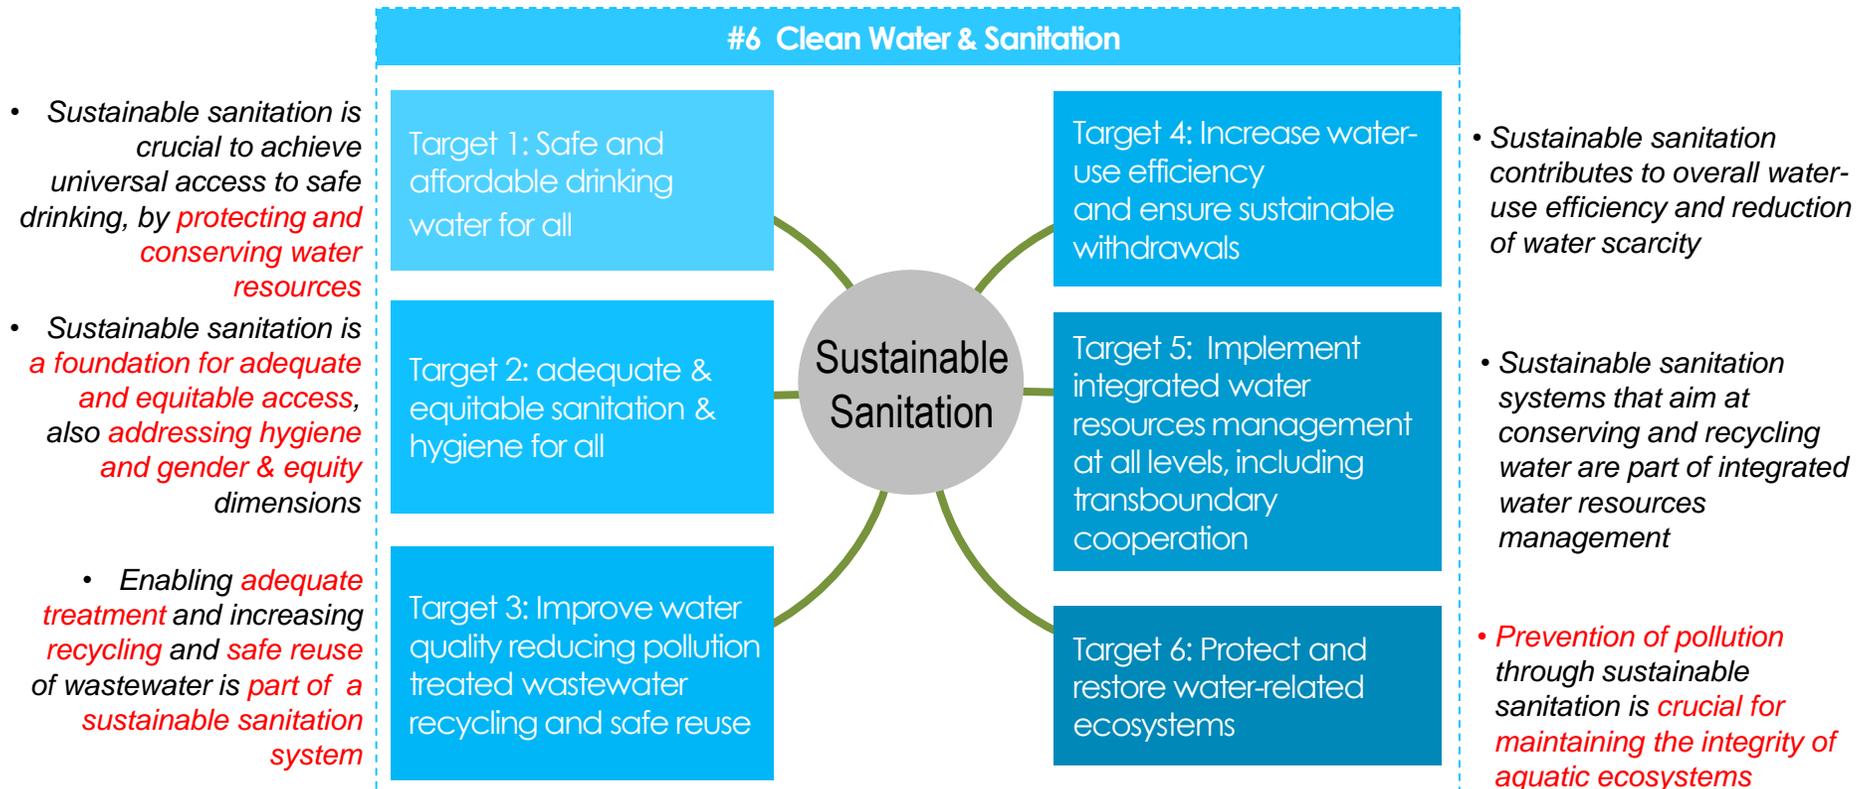

What does this mean for SuSanA ?

New opportunities

- The many linkages between sanitation and targets across all SDGs offer new opportunities for SuSanA to reach out to and cooperate with other sectors

Sanitation is interlinked with and contributing to all the targets of SDG 6

What does this mean for SuSanA ?

Good news: “SDGs are catching up with SuSanA”

- SuSanA’s sustainability criteria are very much in keeping with the underlying philosophy of the new 2030 Agenda and the SDGs

Continuing challenges for SuSanA

- Lobbying role will be less important in favor of a more facilitating role (e.g. information exchange platform, developing appropriate tools, capacity building activities, etc.)
- SuSanA will continue to highlight the need for a system’s approach and looking at the entire service chain

New challenges for SuSanA

- Responding to the call to “leave no one behind”: providing more focus on the hardest to reach and most vulnerable
- Responding to “universality”: still focusing on the low and low-to-middle income countries but be aware of developments in higher income countries and use them as showcase alternatives to conventional wastewater systems
- Improved cooperation between humanitarian and development actors: emergency interventions need to take into account sustainability issues right from the start
- Increased need for technical assistance in developing methodologies and designing monitoring structures at country-level

How to achieve the objectives ?

- Continuing to serve as a **knowledge management and exchange platform**
- Mainly operating through its **working groups and the SuSanA Platform** (discussion forum, webinars, library, project database, SuSanA's wiki-type pages, etc.)
- Face-to-face meetings
- The organisational structure, the thematic orientation of the working groups, and the existing fact sheets will be reviewed and adapted, with particular regard to meeting the (transversal) challenges of:
 - “leaving no one behind”;
 - grasping the new opportunities to reach out to, influence and cooperate with other sectors;
 - Improving cooperation between humanitarian and development actors
- The revised **SuSanA's Vision Document** is available now

Thank you!
