

Hi, I am Mahesh. I work as a FSTP operator for the municipality.

I know that many of you are also providing such services to citizens during this Covid-19 pandemic. And that's why I would like to share some safety tips with you to protect you from the Novel Corona Virus...

Disclaimer: These instructions are no SOPs for their regular work but intended to highlight additional safety measures to be taken by sanitation workers

Before leaving home for your work, you must

Wear full sleeve and full-length clothes

Bottles of water and soap to wash hands during break

Sit on opposite corner of vehicles if travelling together

Cover wounds with water-proof band-aid

Carry extra set of clothes

Carry the emergency pass issued by ULB

When you reach the workplace, you must

1. Wash hands with soap for 20 seconds at least

2. Avoid touching unnecessary objects

3. Wear gloves, mask/cloth, apron, boots

4. Avoid touching face, nose, mouth, eyes

5. Maintain safe distance while traveling together to work site

When you start your work, follow these steps...

Maintain safe distance with co-workers, don't sit together if possible

Collect sample with caution when receiving fecal sludge

Do not touch unnecessary objects

Wash eyes, nose, face in case waste touches

Wash hands with soap before and after having lunch
Also, after having performing any task with possible exposure to faecal sludge, touching register or cleaning the surrounding

Disinfect high touch surfaces – water taps, stair rails, door handles etc. once every 2-4 hours

Spillage of fecal matter to be sprinkled with lime powder and disinfected

At the end of the day,

Remove safety gears

Wash hands and face

Change clothes and put all in a bag

Wear mask/cloth and return to home

Before meeting anyone in the family, first wash clothes and PPEs with soap and hang them in a sunny dry place

Contact a doctor immediately if you have any cough/fever or running nose

Let's conquer the virus by ensuring our safety
