WinS Adaptations in Response to COVID-19
Regional Overview
Adaptations to WASH in Schools and Temporary Learning Spaces (TLS)

**Pakistan**: Reached out and sensitized boys and girls them with key messages during remote mobilization include awareness on COVID-19 and maintaining good hygiene during stay at home to reduce the transmission of COVID-19 infection.

**Bangladesh**: Total 3977 parents reached to follow up on their children education and their awareness on COVID-19.

**Myanmar**: Developing/adapting distance materials for teachers, students alongside paper-based self-study materials. Integrating messaging on COVID-19 and Hygiene awareness for teachers and students.

**Philippines**: Through the WinS TWG: developing session guides for teachers about health and hygiene topics, and how to support health and safety in school and at home.

**China**: Distribution of IPC and Hygiene kit materials in 65 Primary Schools in Guang Zho, Shanghai, and Wuhan to support students with daily hygiene care.

**Afghanistan**: - Developed awareness messages for children, teachers, and parents/caregivers on COVID-19 prevention, - In process of developing SOPs for school reopening (PPE, hygiene, phased reopening plans, etc.).

25 June 2020
Promoting handwashing in School and at Home

Group handwashing facility redesigned at schools in Thailand due to Covid-19 cross-contamination risk

Reinforcing hygiene behaviors at home

…….Before you came I also try to teach my younger sister proper handwashing because we were taught about it at school so I’m happy that I can now use this (holding the one-pager handwashing IEC material) in teaching our family how to proper wash their hands………
WASH in School Adaptations in Urban settings and Camps

Philippines:
- Development and dissemination of IEC materials on health and hygiene
- Fabricate and distribute handwashing facilities (one hands-free or pedal operated, one group handwashing) that are low cost
- Developing session guides for teachers about health and hygiene topics, and how to support health and safety in school and at home once class resumes

Thailand:
Schools in the 9 refugee camps along the Thai-Myanmar Border receive:
- Low cost WASH facilities (hand washing stands) and connecting them to water sources (those that can be connected)
- Sanitation and hygiene supplies (hygiene kits and disinfection solution)
- Teachers’ training on hand-washing
- School IEC materials on handwashing

Note:
Please see the link WASH in Schools in Covid-19 context
1. Kit 2: WASH in school for COVID-19 response
2. Kit 3: Returning to school, for massive cleaning of schools reopening after COVID-19 interruption
3. Hygiene COVID-19 guidance
THANK YOU
