27th SuSanA meeting - Session 4 Sanitation World Café

World Café Timing

1. **Brief introduction** of topics and key questions (2 min per Table)
2. **First round** of discussion (30 minutes)
3. **Second round** of discussion (30 minutes)
4. **Summary** of table discussions through table leads / rapporteur (5 min per table)

World Café Etiquette

Tables	Topic	Table leads
Table 1 WG 3	Climate Change	Annel Michael Phiri (ZEMA) Kasenga Hara (NWASCO) Nyonge Phiri (LWSC)
Table 2 Cross-cutting	Digital approaches in sanitation	Ferdous Mottakin (GSMA) Grace Mwanza Ndashe (LCC) Jakob Kisker (WSUP)
Table 3 Cross-cutting	Gender - “Women’s Sanitation Professional Network”	Shobana Srinivasan (BORDA / SuSanA Secretariat) Ada Oko-Williams (WaterAid)
Table 4 Cross-cutting	Leave no one behind	Martin Gambrill (World Bank) Prit Salian (i-San)
Table 5 WG 7	WASH in institutions	Bella Monse (GIZ) Katherine Pizzacalla (GIZ)
Table 6 Cross-cutting	Financing Sanitation - Subsidies	Rebecca Gilsdorf (World Bank) Doreen Mbalo (GIZ)
Table 7 WG 6	FSM in Cities	Stefan Reuter (BORDA) Chris Buckley (UKZN) Konstantina Velkushanova (UKZN) Belinda Abraham (Thrive Network)

Topic	Questions
Climate Change	<ol style="list-style-type: none"> 1. The water and sanitation sectors can contribute to climate mitigation and potentially mobilize climate financing 2. Climate mitigation in the water and sanitation sector have far-reaching positive impacts in multiple sectors (Co-Benefits).
Digital approaches in sanitation	<ol style="list-style-type: none"> 1. Examples and opportunities: What are the digital approaches the table is aware of and what are possible opportunities for digital approaches to improve the sanitation chain? 2. Skills: How do we ensure that sanitation service providers, governments and users (e.g. Households) have the skill set to operate/use digital system.
Gender - “Women’s Sanitation Professional Network”	<ol style="list-style-type: none"> 1. What are the reasons for the growing demand for a women’s network? How can we ascertain the involvement of women from the Global South in such a network? 2. With the great challenge of SDG 6, we need more (female) professionals on all levels. How could a network contribute to overcome the current capacity gap?
Leave no one behind	<ol style="list-style-type: none"> 1. What are the policy, institutional, regulatory and related challenges of looking at inclusive sanitation in a county/district/province-wide way? 2. What are the service delivery and technological challenges of planning for and delivering county/district/province-wide inclusive way?
WASH in institutions	<ol style="list-style-type: none"> 1. How can we use monitoring data to trigger action in WASH in Institutions?
Financing Sanitation - Subsidies	<ol style="list-style-type: none"> 1. Scarce public resources in the sector are overwhelmingly directed towards networked water supply services. How can sanitation specialists better influence policymakers to shift resources to on-site and/or sewerage sanitation services to ensure SDG 6 is met. 2. The bias against hardware subsidies for household infrastructure in urban and rural sanitation: How can policymakers move towards pursuing comprehensive context-specific cost-benefit analyses of all possible subsidy packages for sanitation (rural and urban) in a given locality, which may include hardware subsidies, sanitation marketing, FSM services, etc. and shift away from issuing blanket recommendations such as CLTS?
FSM in Cities	<ol style="list-style-type: none"> 1. What are the key elements driving collective action towards urban sanitation for all? 2. What integrated approaches do exist to tackle the urban sanitation crisis?
