- 
- One meeting organised
  - Only 3 organisation participated
  - Group members appear less interesting to participate in this Group
  - Email addresses of the Group members made available very late
  - E-Group Discussion & Interaction could not be done effectively except few

# Progress & Recommendation of the 1<sup>st</sup> Meeting

- Community sanitation needs integration with other groups dealing with cost, marketing & awareness
- Design & Development of Community Toilets
- Pay & Use Public Toilets based on Sulabh experience
- Flush toilet is improved sanitation
- Sewers goes to river without treatment
- Showcases
- Case studies
- Identification
- Success ratio
- Willingness to pay marketing strategies
- Responsibility to upkeep the toilets
- What works – What not works in Community Toilets

# Development of TOR

- Draft terms of reference on community sanitation has been prepared
- Collection of case studies will be done till Dec- 2007
- Draft will be circulated to all possible partners for comment
- Final comment on the TORs, contacting of any additional partners and to firm up the final draft of TOR – till Feb 2008
